ABOUT ASEA

Our association was created in 2013, under the guidance of Mr. Darwis KHUDORI, Director of the Master's Degree in Management and International Business, specialized in Exchanges with Asia, which is a study program within the Department of International Pole of Management, the Faculty of International Affairs, the Université Le Havre Normandie.

The role of the association within the university is to reinforce the cohesion of the students of this Master's Degree. Coming from different backgrounds and countries of the world, the students' personal and professional development is the highest priority of the association. In addition, we aim at raising the awareness of the importance of Asia amongst the students of our university, and also at promoting cultural diversity of this vast continent through the organisation of important events throughout the year within our institution and beyond.

The main event we organise annually at the end of academic courses in March is "The Asia Week". This event is the peak of a year of preparation and the proof of our special attention to Asian countries, cultures and environment. During this event, we promote all aspects of Asia through conferences, film screening, culinary experiences, exhibition, socio-cultural evening with music, dances, défilé of traditional costumes, demonstration of martial arts, communication and social media. Moreover, at this academic year 2017-2018, we initiate a "Student Forum in Asian Studies" in the framework of the International and Multidisciplinary Conference THE RISE OF ASIA IN GLOBAL HISTORY AND PERSPECTIVE organized at the University of Le Havre Normandy on March 15-16, 2018. This forum is an opportunity for students and fresh graduates in Asian Studies from all over the world to present their academic works and to meet each other. We will provide transport and accommodation to a number of international students willing to present their work in the forum.

This is why we seek to develop cooperation with public and private sectors of the Asian countries and France. Any help in this matter is welcome and appreciated.

We are looking forward to accomplishing our mission successfully, thanks to all our efforts and possibly a cooperation between ASEA and your organization.

Sincerely Yours,
